**If your pet has an extended stay, greater than 2 weeks, you will receive a 15% discount on the regular boarding price. You must pay in advance to receive the discount.**

**During peak/holiday times, prices are different, so please call for exact pricing.**

**We do offer Sunday pick-ups at 6:00 PM; however, charges do occur for Sunday night.**

**We want to try to protect all pets that stay in our resort from fleas. In order to do so, we require a flea treatment upon your pet's boarding entry. There are two options: Capstar and Nexgard (canine only). Capstar is an oral flea preventive that has an efficacy period of 24 hours. Nexgard is an oral flea and tick preventive that has an efficacy period of 30 days. The fee for the Capstar treatment is \$10.00 and the fee for the Nexgard treatment is \$20.00. Cats must get Capstar, and dogs must get either Capstar or Nexgard (or you may purchase another flea preventive). If your pet is on a routine monthly preventive for fleas, you can choose to waive the flea treatment, as long as no fleas are found on your pet at any time during your pet's stay.**

**For a more precise estimate of what your pet's stay would cost, please speak with one of our Client Care Coordinators.**
